ETCC QUARTERLY MEETING

Industrial Energy Efficiency – Advanced Solutions

Tuesday, August 25th | 9:30 AM – 3:00 PM

Webinar runs from 10:00 AM – 3:00 PM

LOCATION: SoCalGas Energy Resource Center, 9240 Firestone Boulevard, Downey and via Webinar

This ETCC meeting will convene experts from industry, research, utility and government entities working to advance industrial energy efficiency. Speakers on the opening panel will discuss innovative industrial sector solutions that simultaneously address California’s critically urgent water and energy resource constraints.

The next set of speakers will highlight the latest developments in recovery and application of waste heat from thermal and electric industrial processes. The final session will present cutting-edge industrial energy efficiency projects from the end-user’s perspective, leading into an interactive discussion of implementation successes and challenges.

AGENDA

9:30 AM	BREAKFAST AND NETWORKING	
10:00 AM	Safety and ETCC Updates	Abdullah Ahmed , Program Manager, Emerging Technologies, Southern California Gas Company
10:10 AM	Welcome	Lisa Alexander , Director, Southern California Gas Company
10:25 AM	<p>Doubling Down with Water-Energy Solutions</p> <p><i>Leading water-energy experts and product developers address the potential for crosscutting industrial solutions in the face of ongoing or intermittent draught conditions in the West.</i></p>	<p>Moderator: Frank Loge, Executive Director, UC Davis Center for Water-Energy Efficiency</p> <p>Baji Gobburi, VP Sales, Cambrian Innovations</p> <p>Sophie Walewijk, Senior Chemical Engineer, Trevi Systems Inc.</p> <p>Richard Svindland, VP, Operations, American Water</p>
11:40 AM	LUNCH (provided)	

12:40 PM	<p>Doing More with Less - Process Heat Recovery</p> <p><i>Researchers and product developers discuss how the new wave of industrial heat recovery options is poised to expand the options for industrial energy efficiency.</i></p>	<p>Moderator: Ryan Kerr, Emerging Technologies Manager, Gas Technology Institute</p> <p>Bill Hunter, Owner, AirClean Technologies</p> <p>Wes King, IDSM Project Manager, Southern California Edison</p> <p>Vince Sands, Founder & Vice President, Boilerroom Equipment</p>
1:40 PM	BREAK	
1:50 PM	<p>Finding Hidden Energy Savings in Industrial Applications</p> <p><i>Industrial end users discuss how they are uncovering and driving integrated and synergistic solutions in their facilities.</i></p>	<p>Moderator: Paden Cast, Review Engineer, Southern California Gas Company</p> <p>John Scherer, Manager of Engineer, Los Angeles Cold Storage</p> <p>Don Musser, SVM I&E Superintendent, Searles Valley Minerals</p> <p>Daniel Farina, General Manager, American Apparel</p>
3:00 PM	Wrap-Up	<p>Abdullah Ahmed, Program Manager, Emerging Technologies, Southern California Gas Company</p>

ABOUT THE ETCC

The ETCC supports the advancement of energy efficiency and demand response initiatives through its leadership, impact and influence in the emerging technology domain. It pursues this objective through strategic stakeholder engagement and effective and efficient coordination among ETCC members.
